A dedicated short code ("DSC") is a five (5) or six (6) digit number that can send and receive SMS and MMS, and may have improved deliverability at high volumes. Subject to Customer's fulfillment of its obligations under this Service Order, Postscript may facilitate the purchase, setup, and/or maintenance of a DSC for Customer during the Subscription Term. Customer will timely respond to and implement all reasonable requests of Postscript, including any actions required for carrier and aggregator approval of Customer's DSC application. Customer's DSC must be live within 21 days of carrier approval. Postscript will provide reasonable notice if Customer fails to meet these obligations, and if Customer fails to correct such failure within 5 business days following such notice, Postscript reserves the right to abandon, repurpose, charge customer for costs incurred by Postscript in connection with Customer's DSC and DSC application, or cancel Customer's DSC application. If Customer requests or initiates a transfer of its DSC to another provider during the Subscription Term, such transfer will be deemed a request for early termination of this Service Order, and Postscript may require the advance payment of all Fees for a termination for breach by Customer as a condition to granting such request. Following any such transfer of a DSC, Customer is solely responsible for any applicable aggregator, carrier, or other fees. These DSC terms will survive any termination of this SMS Marketing Addendum.
Additional Terms	
Termination for Breach: Customer acknowledges that Postscript offers certain discounts and preferential terms conditioned on the duration of the Service Order term, that Postscript's losses in the event of Customer's breach of the term length would be uncertain and difficult to calculate, and that the termination fees set forth herein are solely intended to compensate for such losses and are not a penalty. If this SMS Marketing Addendum is terminated for Customer's breach (as set forth above in the Service Order), all rates, discounts, waivers, and other special promotions set forth herein will be void, and Postscript may invoice Customer for the full value of any Free Usage actually received by Customer. In addition, Customer will pay a one-time fee equal to (a) the average Message Fees and Carrier Fees in excess of the Minimum Commitment during the preceding three (3) relevant periods, multiplied by (b) the number of relevant periods remaining in the current initial term or renewal term. Please contact your dedicated customer success manager or support@postscript.io if you are experiencing a hardship or other circumstance that affects your business, and Postscript will discuss in good faith an amendment to this Service Order, provided that Postscript reserves the right to request reasonable documentation related to the request and is not obligated to grant such request.
